SUMMARY

Cloud and DevOps professional with hands-on experience deploying and troubleshooting AWS infrastructure, building CI/CD pipelines, and running containerized workloads with Docker and Kubernetes. Comfortable across the stack: Linux administration, Infrastructure as Code with Terraform, Git-based version control, and cloud security fundamentals. Known for fast troubleshooting, clear communication with non-technical stakeholders, and quickly picking up new tools and platforms.

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional (SAP-C02) - 2026
- Google Cybersecurity Professional - 2026
- Kubernetes & Cloud Native Associate (KCNA) - 2025
- AWS AI & ML Scholars: Generative AI with AWS - 2025
- AWS Cloud Practitioner - 2024
- CISCO Network & Security Specialty - 2024
- MERN Stack Full-Stack Development - 2025

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, S3, RDS, Lambda, VPC, IAM, CloudWatch, CloudTrail, Route 53, SageMaker, Bedrock)

Containers & Orchestration: Docker, Kubernetes, ECS, EKS, Helm

CI/CD & Automation: AWS CodePipeline, GitOps, Terraform, AWS CloudFormation, CI/CD pipeline design

Version Control: Git, GitHub

Operating Systems: Linux/Unix administration, Bash scripting

Networking & Security: TCP/IP, DNS, VPN, Load Balancing, Firewalls, IDS/IPS, GuardDuty, KMS

Monitoring & Troubleshooting: CloudWatch, CloudTrail, performance diagnostics, incident response

Programming: Python, JavaScript (MERN), REST APIs

EXPERIENCE

Data Analyst - Global Careers Africa (GCA)

Dec 2025 – Present

- Troubleshoot data pipeline issues and inconsistencies to ensure reporting accuracy.
- Build reports and dashboards translating complex data into clear insight for leadership.
- Cleaning, standardizing, and validating datasets to ensure accuracy, consistency, and reliability across all reporting and analysis.

Cloud Engineer - Shinrai Technologies

Mar 2025 – Apr 2025

- Deployed and managed AWS infrastructure (EC2, VPC, S3, RDS, IAM) for enterprise clients.
- Built and maintained CI/CD pipelines with Terraform, CloudFormation, and AWS CodePipeline, reducing deployment errors and improving release speed.
- Monitored cloud environments with CloudWatch and CloudTrail, proactively identifying and resolving performance and security issues.
- Guided clients through cloud onboarding and access configuration, improving successful deployment rates by 35%.

Cloud Solutions Engineer - E&M Technology House Ltd

Dec 2024 – Feb 2025

- Provisioned and maintained AWS environments using Terraform, automating infrastructure setup and cutting manual effort by 40%.
- Implemented Docker and Kubernetes containerization for consistent, repeatable deployments.
- Troubleshot cloud infrastructure issues across compute, storage, and networking layers.
- Documented deployment procedures, support runbooks, and architecture decisions.

Cloud Engineer - Freelance (Independent Projects)

Jan 2024 – Dec 2024

- Andy's Car Auction: migrated operations to AWS with auto-scaling EC2, S3, RDS, and load-balanced architecture for 24/7 availability.
- AcadeML: deployed and troubleshot AI/ML OCR pipelines on AWS SageMaker and Lambda, improving document throughput by 60%.
- Built and debugged containerized MERN microservices on ECS/EKS, resolving networking, IAM, and deployment issues.

PROJECT HIGHLIGHTS

- AfyaSmart Health App - Clinic follow-up reminder system with a CI/CD pipeline on AWS; owned deployment, monitoring, and issue resolution.
- Coffee Suppliers App - Full-stack MERN app deployed on AWS with containerized microservices.
- Andy's Car Auction Migration - End-to-end AWS migration covering EC2, S3, RDS, VPC, IAM, and CloudWatch.

EDUCATION

Software Engineering – MERN Stack

Power Learn Project Africa

Feb 2025 – Aug 2025

AWS Restart Cloud Training

Ajira

Jan 2024 – Apr 2024

BSc Control Engineering

Multimedia University of Kenya

Sep 2019 – Oct 2023

VOLUNTEER & COMMUNITY

Social Media & Project Lead - CloudmyTribe Cloud Community

Jun 2024 – Present

- Organize cloud education workshops; create content helping the community learn AWS and DevOps concepts.
- Mentor aspiring cloud engineers on AWS fundamentals, certification paths, and hands-on project building.
